

TGE PRESENTS OUTRAGEOUS WAGE OFFER

In June your delegates met with TGE and put forward member claims to lock in fair pay increases and ongoing job security.

Though it was a huge win for TGE to commit to transport reform, the company is now seeking to divide workers by communicating a different wage offer in yards to what it presented at the bargaining table.

TGE REDUCES WAGE OFFER AND BYPASSES YOUR BARGAINING COMMITTEE

Wage offer TGE put to your member-led bargaining committee

3% for 2024 and **3%** for 2025 with no CPI safety net should CPI go above the agreed wage claim

Wage offer TGE communicated to workers through a 'Toolbox Talk'

2.5% for 2024 and **2.5%** for 2025 with no CPI safety net should CPI go above the agreed wage claim

Your team sought immediate clarification from TGE, which responded that 2.5% was its wage offer, despite all 20 members of your bargaining team having been present for the original 3% offer.

It is extraordinarily unacceptable of TGE to undercut its own wage offer with one that is even further from your pay claim.

TGE must come to the table with a better offer

A 3% pay rise was already unacceptable. 2.5% considering the current cost of living is **outrageous**, not to mention **bypassing your bargaining committee** and communicating its reduced offer to workers in yards.

Meanwhile TGE is still **refusing to commit to job security improvements** like site-by-site direct hire ratios. **We must hold TGE to account for a fair offer, and that won't come easily.**
