

OCEANIA ENTERPRISE

AGREEMENT HAS BEEN ENDORSED

Your Oceania EA has now been voted on and endorsed by a 63% Yes and a 37% No vote. After the pressure delegates and members put to make Oceania lift their standards, your new agreement will deliver **union-won improvements like improved job security, classification structure and a 2026 expiry to join the industry fight.**

63%

Despite an improvement in some terms and conditions, we know that 37% of Oceania workers voted No to the agreement. We must stand strong and continue to push the company to improve the issues that this EA does not address. We will be back at the bargaining table next year and will continue to fight for your improved terms and conditions.
